

Medicago sativa Turkey 206452
Individual plants selected for further evaluation
based on their reaction to leafhopper and on their
fall growth - ^{Discarded 1961} J.W. Faulcon, Ill. Caladium, 1960 acc perf rep.

No selections made to date - found no leafhopper
tolerance - Iowa - J. Miller, 1962 acc perf rep. 907538

Had 2 ♀ type plants (male sterile maintainers). W.H.-Davis, Wisconsin -
1967 acc perf rep.

907539

AnS₂ single plant selection has been tested for seed set, male sterile transfer
and forage yield in top crops combinations. It is a very good seed setter, transfers
male sterility well, i.e.; 64 male sterile, 16 partial male sterile, 1 fertile
offspring. Yield advantage in top cross at 106% of Flemish checks. Winter hardiness
is excellent.

W. H. Davis, 1968 Acc. Perf. Rep., Wisconsin
